

INTEGRATED CLOUD BASED ENTERPRISE RESOURCES PLANNING SOLUTION

Greetings,

Thank you for an opportunity to present our simplified ERP Solution for the use of your business. We are specialists in providing custom solutions to everyday business problems. Our team consists of experienced Developers and Designers. We are able to provide exceptional experiences in Business Solutions, using cutting edge technology and deep understanding of User Behavior. By designing our solutions to be extremely **Easy to Use and User friendly**, we empower business owners to focus on growing their company instead of dealing with the hassles of cumbersome software. Another advantage of having simple to use software is that the workforce can very efficiently execute their roles, **saving the company 1000s of cumulative man-hours**.

In the following pages We've listed an overview of the modules that are offered and their functionality respectively. **Each module is matched with your Business function** and customized according to your need. The pricing will be calculated depending on 2 factors –

1. **One time Pricing** – Depending on the modules opted and the customization required. Each modules is highly flexible and can be molded exactly as per your business requirement.
2. **Recurring costs** – Depends on the number of users using the system and the data requirements (eg. Uploads, media etc..)

We don't believe in just selling a software, but our focus is to continuously support our implementation backed by **On-Call assistance** and **Client trainings**.

All our service offerings have **Industry leading security features**, to ensure that your Data always stays exclusively yours. Our implementations are also backed by regular **Data backups** to prepare for any disaster situation.

Look forward to working with you to empower your business with custom Technology solutions

Regards,

Technology Team
